

RANA FATHIMA KP

Full-Stack Developer — Python — Django — React.js
ranakp2004@gmail.com — +91 9526453663 — Kannur, Kerala
GitHub — LinkedIn

Professional Summary

Full-Stack Developer with hands-on experience building web applications using **Python, Django, Django REST Framework, React.js, PostgreSQL, and Docker**. Experienced in developing REST APIs, authentication systems, e-commerce workflows, and AI-powered applications using **RAG, LLMs, embeddings, vector databases, and OpenRouter API**. Currently interning at Bridgeon Skillversity, working on real-world application development, API integration, testing, debugging, and modern software development practices.

Technical Skills

Programming: Python, JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux, React Context API, Responsive Design

Backend: Django, Django REST Framework (DRF), REST APIs, Django ORM

Databases: PostgreSQL, SQLite, JSON, Chroma Vector Database

AI / GenAI: RAG (Retrieval-Augmented Generation), LLM, Embeddings, Vector Search

Tools & Technologies: Docker, Docker Compose, Redis, Celery, Git, GitHub, VS Code, Django Admin

Concepts: OOP, CRUD Operations, JWT Authentication, WebSockets, API Integration, State Management, Responsive Design

Soft Skills: Communication, Teamwork, Time Management, Problem Solving, Adaptability

Professional Experience

Full-Stack Developer Intern – Bridgeon Skillversity, Calicut

Oct 2025 – Present

- Assisted in designing and developing web applications using **Python, Django, React.js, and PostgreSQL**.
- Developed and integrated **REST APIs** using Django REST Framework for communication between frontend and backend services.
- Implemented and worked with **JWT authentication**, CRUD operations, database integration, and responsive frontend components.
- Collaborated with mentors and team members to troubleshoot bugs, test application features, and improve application functionality.
- Worked with **Docker and Docker Compose** for containerized application development and environment setup.
- Participated in team discussions, sprint activities, debugging, testing, and collaborative software development processes.
- Continuously learned and applied modern technologies including backend development, AI integration, vector databases, and asynchronous task processing.

Projects

Fashion E-Commerce Platform – Full-Stack Application

2026

- Developed a full-stack e-commerce platform using **React.js, Django, Django REST Framework, and PostgreSQL** with separate customer and administrative functionalities.
- Implemented core e-commerce features including **user authentication, product browsing, category filtering, wishlist, cart, addresses, coupons, orders, returns, reviews, and payment integration**.
- Developed secure backend services using **Django REST Framework, JWT authentication, serializers, viewsets, and Django ORM**.
- Built an AI-powered chatbot using **RAG (Retrieval-Augmented Generation), LLMs, embeddings, and Chroma Vector Database** to provide context-aware responses.
- Processed company information, FAQs, return policies, and shipping policies from **PDF documents**, converting documents into chunks and storing their embeddings in the vector database.
- Implemented semantic retrieval from the **Chroma Vector Database** and connected the retrieved context to an LLM through the **OpenRouter API** for generating relevant chatbot responses.
- Used **Docker and Docker Compose** to containerize the frontend, backend, Redis, and supporting services for consistent development and deployment environments.
- Integrated **Redis and Celery** for asynchronous/background processing and implemented **WebSocket-based notifications** for real-time application updates.
- Integrated **Razorpay payment functionality** and worked on order processing, testing, debugging, and API error handling.

Certifications

AI–Data Architect – Grade A

Mar 2024 – Sep 2024

National Institute for Social Empowerment
ITM College of Arts and Science, Mayyil, Kannur

Education

Bachelor of Computer Applications (BCA)

Kannur University, Kerala

2022–2025
